

3 reasons to use Atlantis

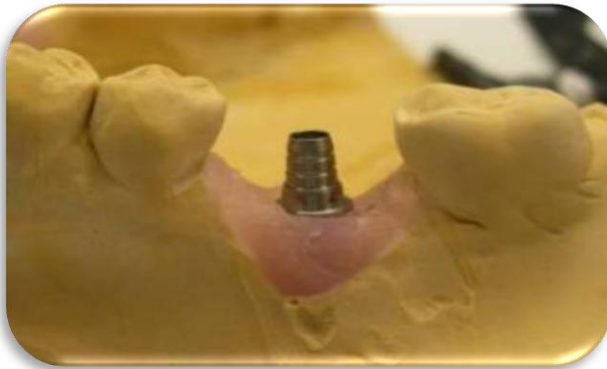

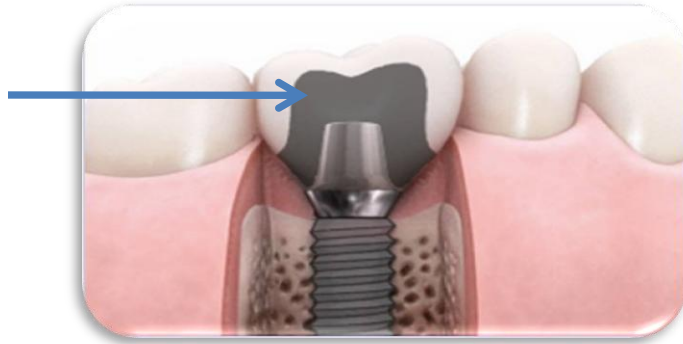

3 reasons to use Atlantis™

modified stock

Atlantis™

1. Less alloy needed for restoration

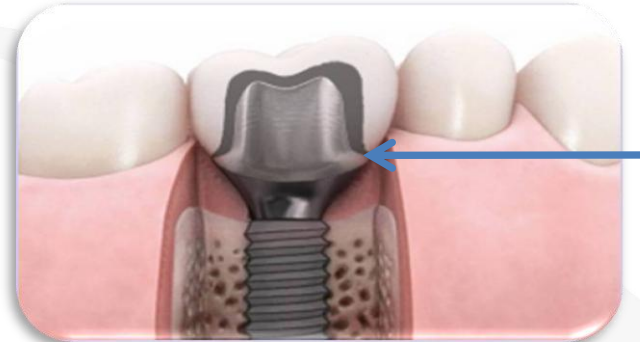

3 reasons to use Atlantis™

modified stock

Atlantis™

2. Cement junction easier to access

3 reasons to use Atlantis™

modified stock

Atlantis™

3. More surface area to retain final restorations

The Atlantis System

What are **Atlantis™** abutments?

Patient-specific CAD/CAM abutments

Designed from the final tooth shape utilising the unique Atlantis VAD™ (Virtual Abutment Design) software

Highest precision and quality every time

Guaranteed !

The Atlantis™ range

New

Atlantis™ abutment in titanium

Atlantis™ GoldHue™ abutment

Atlantis™ white zirconia abutment

Atlantis™ shaded zirconia abutment

Atlantis™ compatibility

Available for all major implant systems

Astra Tech

Biomet 3i

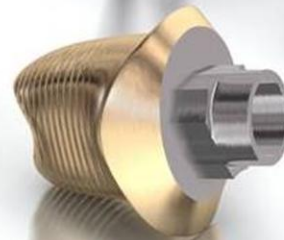

Nobel Biocare

Zimmer Dental

BioHorizons

Dentsply

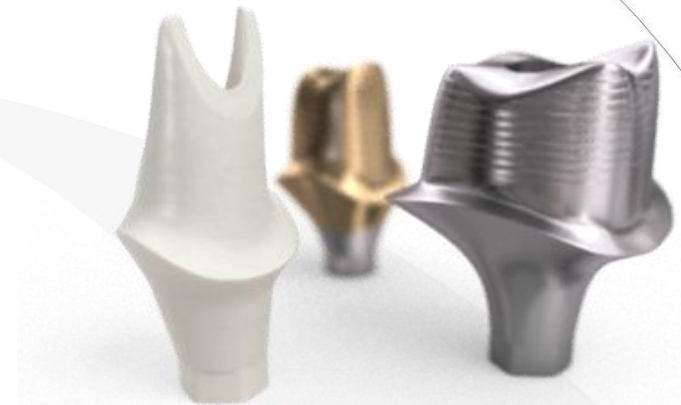

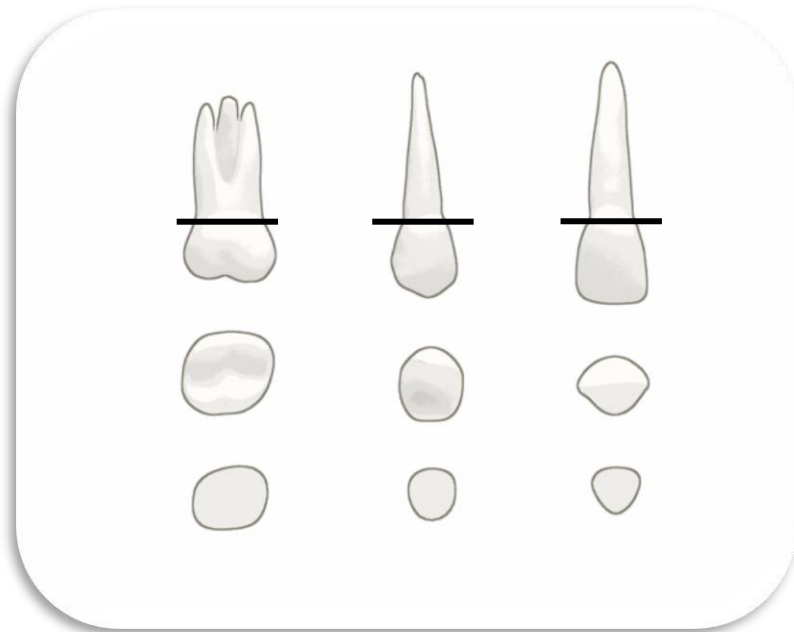

Straumann

Atlantis™ over a modified stock

Teeth aren't round !

Atlantis™ abutments
VAD
- designed from the final
tooth shape !

Wheeler's Dental Anatomy, Physiology and Occlusion,
Major M. Ash, Stanley Nelson

**Atlantis abutments
provide better results
and better value**

More for less!

If you were to use a **Atlantis™ Titanium** abutment instead of a modified stock you could save **up to £37.89** per fixture restored

If you were to use an **Atlantis™ Gold Hue** abutment instead of a Gold Custom abutment you could **save up to £110.81** per fixture restored

If you were to use an **Atlantis™ Zirconia** abutment instead of a modified stock zirconia abutment you could **save up to £54.16** per fixture restored

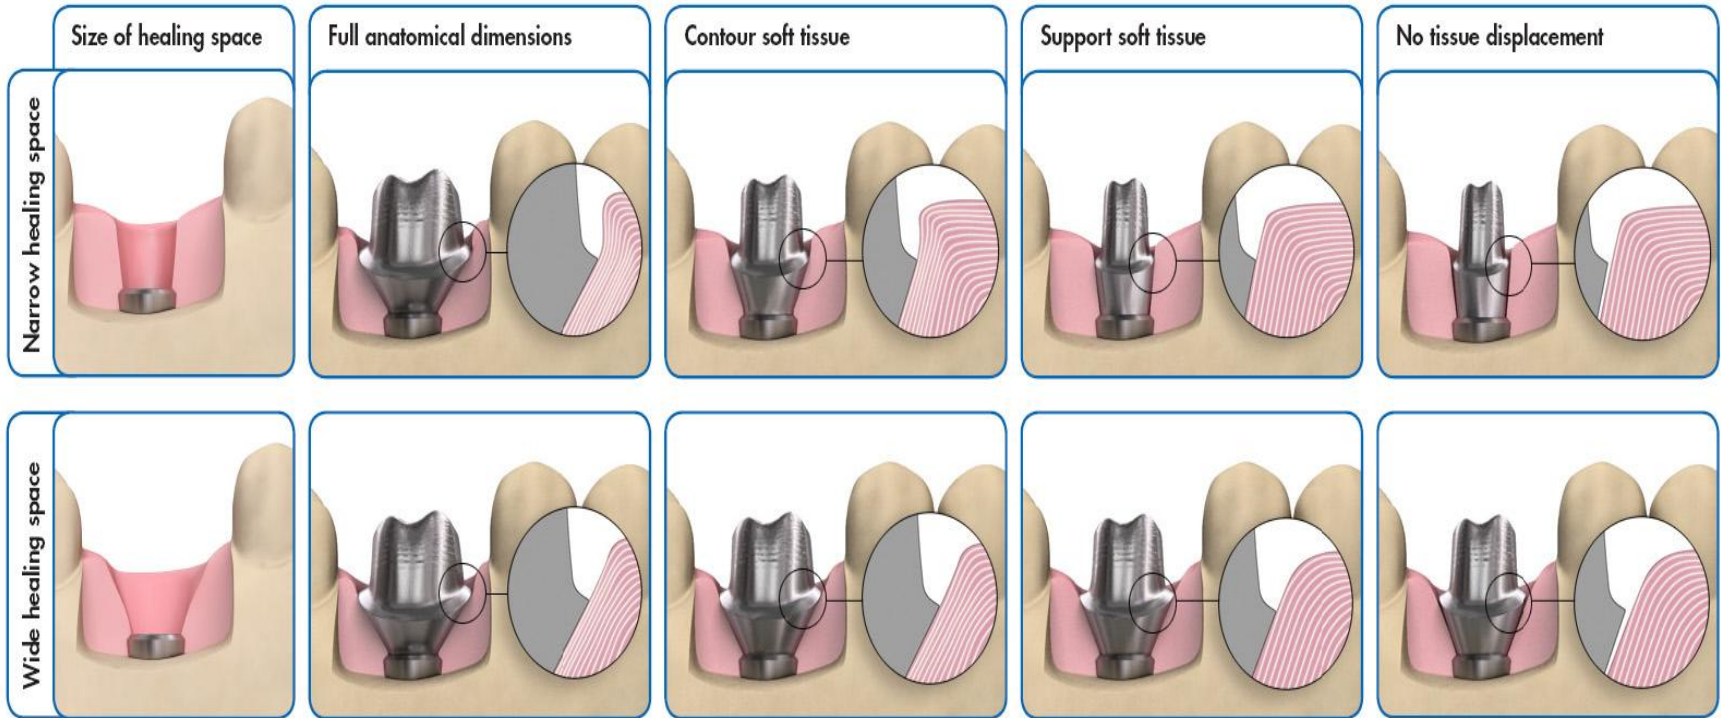

The Atlantis Advantage

Greater control

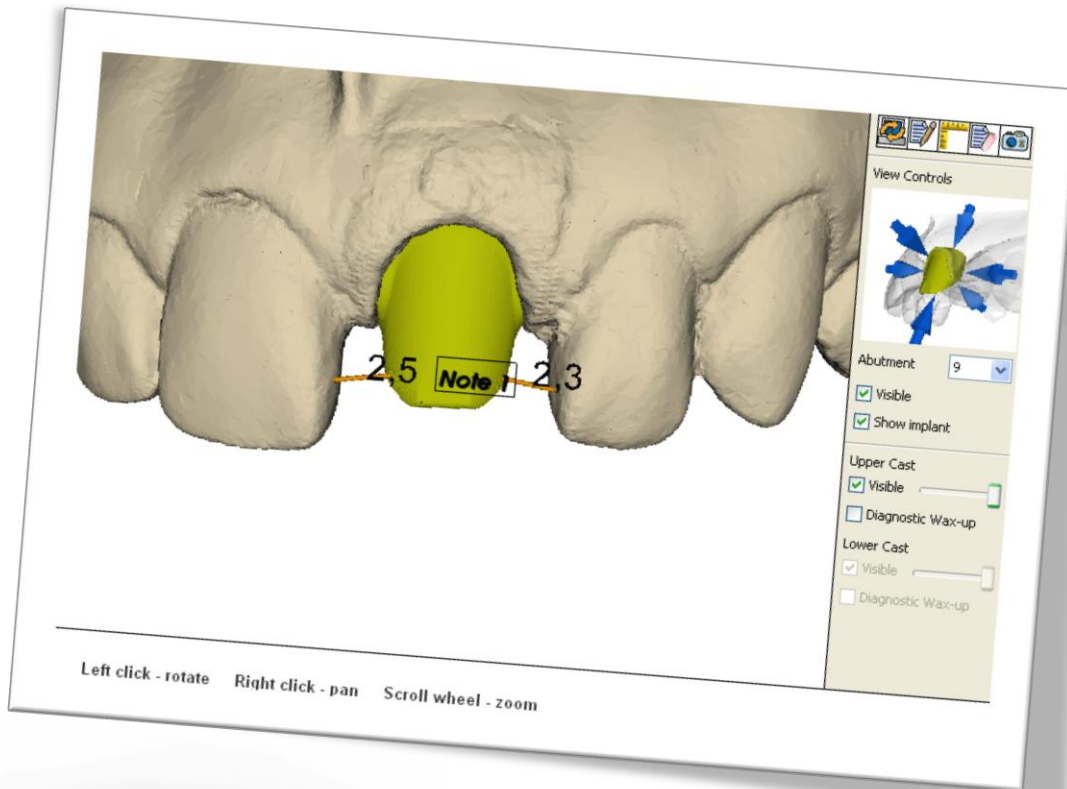

– emergence width options

You have extra information tools to relay to the laboratory the way in which you wish to develop the soft tissue site.

Full 3D imaging

- 3D images can be shared directly with surgery
- See what's proposed before it's milled
- Improves communication to ensure final outcome is what the surgeon requires

ATLANTIS™

So, why wouldn't you move to **Atlantis™**?
